These physicians are among the TOP OPHTHALMOLOGISTS IN THE NATION

May is National Healthy Vision Month

More than 14 million Americans suffer from uncorrected vision problems such as nearsightedness, farsightedness, astigmatism, and/or presbyopia and can benefit from the use of corrective eyewear such as glasses or contact lenses. The National Eye Institute (NEI) is raising awareness about the importance of eye exams in detecting common vision problems. Annual eye examinations are also important in diagnosing and treating eye diseases and visual disorders such as: diabetic retinopathy, glaucoma, age-related macular degeneration, cataracts and other potentially serious conditions.

These physicians are among the Top Ophthalmologists in the nation as selected by Castle Connolly Medical Ltd. Castle Connolly is the publisher of America’s Top Doctors®, Top Doctors: New York Metro Area, and the source of Top Doctors articles in New York, Inside Jersey, Westchester, Greenwich, Chicago, Seattle, Atlanta, Philadelphia, Boston, Gulf Shore Life, and other magazines throughout the nation. Physicians included in Castle Connolly’s Guides and on its website (www.castleconnolly.com) have been selected based on extensive surveys of physicians nationwide. All physicians who are nominated undergo an extensive review of credentials by Castle Connolly’s physician-led research team. Doctors cannot and do not pay to be selected as a CCML Top Doctor.

Pamela F. Gallin, M.D., FACS
635 West 16th Street, Suite 224
